

Hello to you, aviators and enthusiasts,

We will celebrate the **20th anniversary** of Fly'in Saint Yan on the weekend of June 11 to Sunday, June 13, 2021 with the **air show** culminating **Saturday, June 12**

In **less than a hundred days**, passionate and passionate will be reunited around a vibrant theme, aviation... For the occasion, we concoct an exceptional plateau with some mythical machines that have marked the history of this aviation and that will be on the tarmac of Saint-Yan.

The **Douglas AD-4N Skyraider**, a fabulous machine built to more than 3,000 units by the Douglas Aircraft Company. This aircraft has been engaged in a number of theatres of operation and 113 have been equipped with the French Air Force since 1960. This unique aircraft with **the world's most powerful** piston engine ever built with more than 3,000 hp in its most advanced version. You'll see him for the first time in his new **"Sandy"** dress.

With it, in hunting duo, another technology with the **North America F-86 Sabre** equipped with a 25kN General Electric thrust turbojet. Note that this fabulous fighter was the **first jet equipped** the Air Force, within the 13th Fighter Squadron based in Lahr and Bremgarten.

Another fighter of another generation, the **Hawker Hunter**, a British fighter aircraft of the 58/60s built in total to nearly 2,000 and used by some 20 countries until the late 1990s. Much appreciated by the pilots, the Hunter showed excellent performance for the time by being at the same time fast, very maneuverable and robust. A regular of our Fly'in, with Eric and his team who could not be with us in September 2020 for health reasons (...) we can't wait to see them all again!

At last but not least, the **Sparflex team** and their three copies of **L39 Albatros** who had made a stunning demo. And as we like to say, their finesse of flying is matched only by the sympathy of this superb team of pilots who know all about the friendship between aviators.

The countdown has already begun, and the **Dream Team** is fully in the build-up. You can imagine all the administrative and financial procedures in these times of pandemic so that this **great festive moment** is done, for the safety of all, in accordance with the regulations relating to a meeting of great importance, and health in these delicate moments.

Sign up: free flight participation
If you want to join the Volunteer Dream Team, sign up too! It's free too!

The Dream Team

Below, a small part of the Dream Team

Association Fly IN LFBK

L'Association Fly In LFBK a pour but d'organiser, bénévolement, de développer et de promouvoir le Fly IN et son Meeting aérien. Elle a également pour but de rassembler des personnes physiques ou morales qui s'intéressent à l'aéronautique, afin de conserver, valoriser et promouvoir le patrimoine aéronautique, de monter, coordonner, participer ou soutenir toutes manifestations culturelles, événementielles et festives permettant la valorisation dudit patrimoine.

Souhaitez-vous vous joindre à nous, nous soutenir, nous aider ? Par avance, merci.
